## Quarterly Budget Performance Report Quarter 3 2019-20

## INTRODUCTION

This is the performance report for the third quarter of the 2019-20 Budget year for the Republic of Nauru. It provides revenue and expenditure data recorded by Treasury for the period 1 July 2019 to 31 March 2020. It is based on all available information to Treasury from the Government's accounts and departmental sources as at 6 April 2020.

- In aggregate, actual year to date performance is consistent with expectations, with 82 per cent of total annual revenue collected and 67 per cent of total expenditure spent to date.

This report only covers General Government operations. Donor expenditures and the operations of State-owned enterprises (SoE's) are not included, except where transfers from the Government have been made to donor projects or as subsidies/loans to SoE's. Likewise receipts from direct budget support donor funding have been included. All figures are in Australian dollars.

## Overview

## Macroeconomic Assumptions

During the period, there was no change in the macro-economic assumptions from those adopted in the 2019-20 Budget: growth would be flat ( 0.6 per cent) and inflation would be around 2 per cent. The nominal GDP estimate for $2019-20$ is $\$ 170.2$ million.

These assumptions are likely to change in the next quarter, given the impact of the Coronavirus pandemic. The Government's initial response to the pandemic is being covered by re-prioritisation of existing expenditure to cover health and quarantine costs and liquidity support for Nauru Airlines. Some revenues are at risk from the pandemic, such as fisheries and travel related revenues, but are expected to be partly offset by increased donor contributions.

## SUPPLEMENTARY APPROPRIATIONS

There was one supplementary appropriation in the quarter, following the mid-year review of budget estimates.

- Supplementary Appropriation No. 5 2019-20 (28 January 2020) recognised $\$ 17.1$ million in additional revenue mainly related to increased fisheries related revenue and visa fees, and appropriated $\$ 17.1$ million for various expenditures. These included subsidies to SOEs (Nauru Airlines and Nauru Rehabilitation Corporation), provision for unanticipated Port project costs, the fiscal cash buffer, Nauru Trust Fund contributions and operational costs for various departments.

## Revised 2019-20 Budget

Following the supplementary bill, the revised budget for 2019-20 is for revenue of $\$ 249.6$ million and expenditure of $\$ 248.8$ million with a surplus balance of $\$ 0.8$ million.

## FISCAL RESPONSIBILITY RATIOS

The Government has adopted the following fiscal responsibility ratios:

- Fiscal balance to GDP ratio must not be negative - budget must at least be in balance
- Fiscal cash buffer - cash reserves up to the equivalent of two months non-RPC related expenditure must be available
- Personnel costs to current expenditure to be less than 30 per cent.

Performance in the quarter against these ratios is summarised in the tables below. All ratios were met at the end of the quarter.

## Total Budget Aggregates

The total budget aggregates for 2019-20 Budget and year to date, as well as the preliminary final budget outcome for 2018-19 are shown in Table 3 and Figure 1. Performance is consistent with expectations, with revenue collections peaking in the second quarter and expenditures gradually accelerating as the year progresses.

Table 3 Aggregate results Q2 2019-20

Figure 1 Aggregate results by Quarter 2019-20

## Operating Revenue Analysis

Actual revenues collected to date have been in line with expectations, reflecting the seasonal nature of some revenue streams (for example fisheries revenue) (see Figure 2). Actual revenue collected to the end of the third quarter 2019-20 accounted for 82 per cent of the revised budget estimate for 2019-20 (Table 4).

The Coronavirus pandemic is expected to put some revenue collections at risk for the next quarter, mainly as a result of travel restrictions. This is likely to impact on employment withholding tax (due to less expatriate workers on Island), air services related non-tax revenue (due to less flights and passengers) and fisheries revenue (due to lower demand for fish in international markets, and therefore less demand for fishing days). These losses are expected to be offset by increased donor support.

Direct budget support payments from the Asian Development Bank (ADB) and Taiwan are expected to be received in the fourth quarter.

## Visa Fees

Total revenue from visa fees was in line with expectations in the quarter (see Table 5). This included resolution of historical reimbursement payments from Australia. In line with reduced RPC activity, Visa Fees - RPC continued to be lower than originally budgeted.

Table 5 Visa Revenues Q3 2019-20

## Fishing Revenues

Fishing revenues are in line with expectations (Table 6). This revenue group is strongly seasonal, with the majority of revenue being received in the second quarter. Final quarter revenues may be at risk due to reduced demand for fishing days in light of the Coronavirus pandemic.

## Taxation Revenue

Taxation revenues were in line with expectations (Table 7). Collections of employment withholding tax are expected to be at risk in the next quarter due to the Coronavirus pandemic, and the reduced number of expatriates on Nauru. The final business tax instalment is expected on 15 April 2020.

## Non-tax ReVenue

Non-tax revenue collections in the year to date are broadly in line with expectations (Table 8), with the exception of reimbursement of RPC operational costs, which is running behind budget at 41 per cent reimbursed to date. Revenues from flight related activity (DCA Departure taxes, air navigation fees, landing fees and rental fees) are running behind expectations, and not expected to recover, given the impact of the Coronavirus pandemic.

## Customs and Other Import Duties

Customs and excise duty collections are broadly on track to achieve the budget estimate (Table 9). Customs and excise duty on sugar continues to be collected at a higher rate than anticipated at budget.

## Other Revenue - Dividends and Grants

Income from dividends and grants was received during the quarter (Table 10). Direct budget support was received from Taiwan, with further payments from Taiwan and the ADB expected in the final quarter. A dividend of $\$ 100,000$ was received from the Post Office during the quarter.

## Revenue by Department

Table 11 shows the 2018-19 preliminary budget outcome, 2019-20 Budget and actual revenue for the year to date by department head.

Please note that the total 2018-19 preliminary actual is not the complete total, due to matching with 2019-20 approved budget lines for comparison. Some lines relevant to 2018-19 are not included.

Maritime transport revenues reflect the timing issues associated with the execution of the decision to remove it from the budget.

## Operating Expenditure Analysis

Total expenditure for the quarter is shown in Table 12. Expenditure on Social Benefits and Subsidies \& Donations is running ahead of expectations, offset by lower than expected expenditure in other areas.

Inter Sub-Head Transfers (ISHTs) have reduced provisions in non-expense items (mainly the fiscal cash buffer) to cover unexpected costs related to Subsidies for SOEs (Ronphos) and Government Operations (mainly the Contingency reserve as part of the Coronavirus pandemic response).

Figure 3 illustrates the expenditure by quarter. Expenditure in the third quarter has continued to gain momentum, especially in Government Operations and Subsidies \& Donations. Capital expenditure has also picked up, but is unlikely to be fully expended by the end of the year.

## Government Travel

Expenditure on Government Travel (Table 14) is broadly in line with expectations. Travel expenditure is expected to continue to be less than budgeted for the rest of the year, given travel restrictions associated with the Coronavirus pandemic.

## SUBSIDIES \& DONATIONS

Expenditure on Subsidies \& Donations (Table 15) is in line with expectations, reflecting planned payments to SOEs during the quarter. This included a subsidy to Nauru Airlines to support liquidity in light of travel restrictions imposed to address the Coronavirus pandemic, and further cash flow support payments to Ronphos. Some of these payments have been covered by ISHTs from the fiscal cash buffer (non-expense item), but most reflected supplementary appropriations.

## Capital Expenditure

Overall capital expenditure is less than expected (Table 16), especially expenditure on Buildings and Structures. This line includes provisions to support the Port redevelopment project, which may be called on in the final quarter.

## Social Benefits

Expenditure on social benefits (Table 17) has been significantly higher than expected, despite supplementation. Expenditure on Nauru Community Housing is running ahead of budget and is likely to be fully expended before the end of the financial year.

## Non-EXPENSE ITEMS

Expenditure is consistent with expectations (Table 19), with a one-off Bank of Nauru depositor repayment round progressed in the quarter. ISHT's from the fiscal cash buffer supported Government to address urgent and unforeseen expenditure, mainly related to subsidies to SOEs (Ronphos cash flow) and the response to the Coronavirus pandemic (transfer to Contingency).

## Government Operations

Overall, expenditure on government operations was consistent with expectations (Table 20). However, expenditure on some health-related lines, such as R\&M Medical equipment ( 88 per cent), laboratory supplies ( 93 per cent) and overseas medical treatment ( 92 per cent of budget) were running well ahead of budget. The first two categories reflect, in part, preparedness for the Coronavirus pandemic.

ISHT's have been used to reallocate funds between categories, the most significant being the allocation to the Contingency Fund, to support the Government's immediate response to the Coronavirus pandemic.

## EXPENDITURE by DEPARTMENT

Table 21 shows actual expenditure for the year to date by department head.
Expenditure is generally in line with expectations, with some exceptions. Departments with a rate of expenditure running ahead of budget include Ministerial ( 80 per cent), ICT ( 88 per cent), and the lands related departments - Lands and Survey ( 94 per cent), Land Committee ( 80 per cent) and Land Management (95 per cent). Annual rent payments for Lands \& Survey were made in January 2020.

Departments that are significantly underspending include TVET ( 25 per cent), Infrastructure (46 per cent) and Telecom (21 per cent). Expenditure on the establishment of new diplomatic posts in Canberra and India is also less than expected.

Please note that the total 2018-19 preliminary actual is not the complete total, due to matching with 2019-20 approved budget lines for comparison. Some lines relevant to 2018-19 are not included.

## Cash Flow Position

The Government continues to maintain a healthy cash position as illustrated in Figure 4. At the end of the quarter total available funds were $\$ 124$ million. The cash buffer requirement of two months of non-RPC expenditure was $\$ 30.4$ million. Total available funds were significantly in excess of the recommended fiscal cash buffer, with $\$ 29.2$ million quarantined in separate cash buffer accounts.
