Executive Summary

The Government of Nauru released the National Sustainable Development Strategy 2019-2030 (NSDS) in 2020, following a comprehensive review of the National Sustainable Development Strategy 2005-2025. This document outlines the targets established by the Government of Nauru to monitor progress towards NSDS goals, providing agencies with clear milestones to guide their planning and activities in the near future and over the longer term.

There are 133 Key Performance Indicators (KPIs) across the 24 NSDS goals. Each indicator includes a baseline, targets for the current financial year, and a long term 2030 target. The targets will be monitored through an annual review process led by the Planning and Aid Division in the Department of Finance, and an annual NSDS report compiled at the end of each financial year.

Agencies are required to align their planning and budgets to support these targets.

The KPIs were developed between March and September 2021, through extensive consultation with implementing agencies. They represent a substantial investment by participants in ensuring the Republic of Nauru remains on track towards the NSDS goals, and the betterment of the people of Nauru.

National Sustainable Development Strategy 2019-2030

The National Sustainable Development Strategy 2019-2030 (NSDS) outlines Nauru's vision, mission and national development priorities.

The Strategy encompasses 24 goals across 4 sectors:

- Economic Sector
- Social and Community Sectors
- Infrastructure Sector, and
- Cross-Cutting Sectors.

This document outlines the Key Performance Indicators (KPIs) used to measure progress towards the goals established in the NSDS.

There are 133 Key Performance Indicators (KPIs) across the 24 NSDS goals.

Planning and Funding

While the KPIs will not address every aspect of an organisation's activities, Departments and SOEs must ensure their plans and programs align to the KPIs.

Departments and SOEs are responsible for determining the activities required to meet the KPI targets, and securing funding from the Government of Nauru or a donor.

Nauru- funded activities are managed through the normal Government of Nauru budgeting process. Donor funded projects must be approved by the Government of Nauru and the relevant donor. Funding for donor-funded activities is managed through the Development Fund by the Planning and Aid Division.

Reporting

An Annual NSDS Report is developed in September of each year, measuring progress against KPIs for the financial year just completed.

The report is provided to Cabinet, and includes recommendations for addressing At-Risk or Off-Track measures. The Planning and Aid Division works with Departments and SOEs to follow up on At-Risk or Off-Track targets.

A streamlined report, detailing progress against KPIs only, is produced for external stakeholders, including donors.
