### **Opening Statement**

We are now in the third year of producing an NSDS Annual Report. This report underscores the significant value of a robust monitoring and evaluation system, maintained and enhanced by the dedicated efforts of the NSDS Committee.

In a small nation like Nauru, where responsibilities are numerous and resources are often limited, the importance of such a system cannot be overstated. This report highlights the tireless efforts of our government and partners, working in unison to drive Nauru closer to our ambitious 2030 national goals. Our achievements are a testament to the steadfast support and invaluable contributions of our esteemed donor partners. Thanking all the donor partners for their endless support.

This year's data reveals encouraging trends, particularly the growing collaboration across various organisations and sectors. Another in the momentum now being gained in large-scale projects such as the Nauru Sustainable Urban Development Project, the Ports Development Project, the Solar Power Project, and the East Micronesian Cable System, which are key to Nauru's future prosperity.

I wish to thank all involved in the development of this report.

His Excellency the Honourable David W.R. Adeang, M.P President and Minister for Finance

## Nauru's National Sustainable Development Strategy

The National Strategic Development Strategy outlines 24 integrated and interrelated goals to support Nauru's developing economy, infrastructure, and improved health and well-being by 2030.

The Government of Nauru released the National Sustainable Development Strategy 2019- 2030 (NSDS) in 2020, following a comprehensive review of the National Sustainable Development Strategy 2005-2025. In 2021, a set of Key Performance Indicators were developed to monitor progress towards the 24 NSDS goals listed across four sectors - Economic, Social and Community, Infrastructure and Cross-Cutting.

| Economic Sector  | Social and Community<br>Sectors  | Infrastructure Sector  | Cross-Cutting Sectors  |  |
|--|--|--|--|--|
| Econ-Goal 1: A stable macroeconomic<br>environment conducive to private<br>investment established  | Soc-Goal 1: Improve the quality and<br>broaden the scope and reach of<br>education   | Infra-Goal 1: Provide a reliable<br>affordable, secure and sustainable<br>energy supply to meet<br>socio-economic development needs                                    | Cross-Goal 1: Strengthen and<br>develop the institutional capacity<br>of the Nauru Public Service                                    |  |
| Econ-Goal 2: Increased level of domestic<br>agricultural production aimed at<br>addressing food security and healthy<br>livelihoods            | Soc-Goal 2: A healthy and<br>productive population   | Infra-Goal 2: Provide a reliable,<br>safe, affordable, secure and<br>sustainable water supply to meet<br>socio-economic development needs                              | Cross-Goal 2: Strengthen<br>Parliament, Audit, Justice, Law,<br>Order and Border Control   |  |
| Econ-Goal 3: Enhance development and<br>sustainable management of marine and<br>fisheries resources to provide sustainable<br>economic returns | Soc-Goal 3: Enhanced quality of life<br>through Sports for All   | Infra-Goal 3: Effective management<br>of waste and pollution that<br>minimises negative impacts on<br>public health and environment                                    | Cross-Goal 3: A transparent and<br>fair land management system<br>that supports social, economic<br>and private sector development   |  |
| Econ-Goal 4: Efficient and effective use of<br>mining and quarrying resources for<br>economic and rehabilitation purpose<br>economy            | Soc-Goal 4: A cultural,<br>socio-inclusive, cohesive and self<br>reliant community with sustainable<br>livelihoods                   | Infra-Goal 4: Improve transport<br>infrastructure and provide reliable<br>and sustainable transport services   | Cross-Goal 4: Sustainable use<br>and management of the<br>environment and natural<br>resources for present and future<br>generations |  |
| Econ-Goal 5: Promote development of<br>small and micro enterprises, foreign<br>investment and economic integration into<br>the global economy  | Soc-Goal 5: A just society that<br>recognizes and respects the rights of<br>women and children, that promotes<br>equal opportunities | Infra-Goal 5: Provide universal and<br>reliable access to internationally<br>competitive communication services<br>and an independent and<br>commercially viable media | Cross-Goal 5: Build up<br>resilience to combat the effects<br>of climate change and natural<br>disasters                             |  |
| Econ-Goal 6: Promote Development of<br>small-scale sustainable tourism   | Socal-Goal 6: Investing in Youth - A sustained future for Nauru  |  | 5x   |  |
| Econ-Goal 7: An effective, competitive<br>and stable financial system that will<br>enhance economic growth and<br>development                  | Soc-Goal 7: A robust, vibrant and<br>effective civil society for a just and<br>peaceful Nauru  |  |  |  |

There are 132 Key Performance Indicators (KPIs) across the 24 NSDS goals. Each indicator includes a baseline, targets for the current financial year, and a long term 2030 target.

Departments and SOEs are required to align their planning and budgets to support these targets.

The 24 goals in the NSDS are assessed and rated in this report, according to the achievement of targets set for the goal's KPIs. The ratings are outlined in the table below.

| % of KPI<br>targets<br>achieved in the<br>Goal/Sector | Rating | Rating<br>Definition                           |
|---|--------|--|
| 61-100%   |        | On track<br>to achieving<br>2030 targets       |
| 41-60%  |        | At risk<br>of not<br>achieving<br>2030 targets |
| Below<br>41%  |        | Off-track from<br>achieving<br>2030 targets    |

Where no information was provided on a KPI's progress, it was marked as being off track, and a note added that 'No data'.

### Overview

Nauru has experienced a decline in progress towards National Development goals.

This financial year, only the cross-cutting sector is on track to meet the 2030 KPI targets. With a barely pass overall percentage of 52, the cross-cutting sector is on track. The other three sectors, the Economic, Social and Community and Infrastructure sectors, are off track, with 32% of KPI targets met in the Economic Sector, 30% in the Social and Community sector and 36% in the Infrastructure Sector.

This report includes a narrative update on some KPIs, to show the progress made towards each goal. This change was made as it is important to note the good work which is underway, even though targets may not have been met. Key highlights are also provided below. However, this year, it is regrettable to note that most Departments and SOEs did not update their KPIs. Compared to last year's report, this year's report lacks data. The most complex Departments and SOEs with most KPIs were not recorded in this report and were marked 'no data'. This lack of information may provide an inaccurate picture of Nauru's progress, and highlights the importance of all stakeholders contributing updates to the annual reporting process.

The report also now includes a table showing the rating for each goal, and a comparison of target progress between FY 22-23 and FY 23-24.

There are steps the Government, donors, and private stakeholders can take to help Nauru meet the strategic goals set in the NSDS report.

The top four steps for donors and Government are outlined in this report, along with a series of recommendations for targets which are not met.

The NSDS Committee will monitor progress towards NSDS KPI targets, and against the recommendations outlined in this report, helping to ensure that activities are aligned with NSDS objectives.

### Nauru's National Development Goals

How much closer is Nauru to reaching the NSDS 2019 - 2030 National Development Goals?

\* Denotes goal where KPI updates were not provided and KPI marked as having 0% progress

### Progress towards Nauru's National Development Goals - Comparison

|   | FY 22-23                | FY 23-24                | Movement |
|---|-------------------------|-------------------------|----------|
|   | % KPI<br>targets<br>met | % KPI<br>targets<br>met |          |
| Stable, Trustworthy, Fiscally<br>Responsible Government                   | 24%                     | 37%                     | î        |
| Access to Quality Education,<br>both formal and non-formal                | 13%                     | 17%                     | î        |
| Improved Health and Well<br>Being   | 57%                     | 56%                     | Ų        |
| Provision of enhanced social,<br>infrastructure and utilities<br>services | 39%                     | 40%                     | î        |
| Development of an economy<br>based on multiple sources of<br>revenue      | 25%                     | 29%                     | î        |
| Enhance resilience against the impact of climate change                   | 0%                      | 43%                     | î        |
| Development of domestic<br>food production for food<br>security           | 25%                     | 0%                      | Ų        |

### **Measuring Progress**

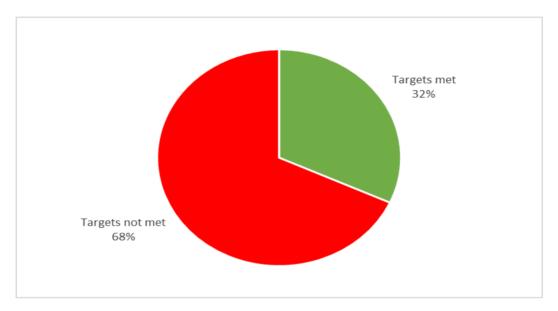

| Sector                  | Status | Summary   |
|-------------------------|--------|---|
| Economic                |        | Econ-goal 7 is on track to achieving its end<br>goals. The contributors to this goal are the<br>Foreign Investment and Commerce<br>Division. Maintaining this, significant<br>support is still required for business<br>development and foreign investment.   |
| Social<br>and Community |        | Most Sports KPIs are on track, some<br>partially met. 2 KPIs in health relating to<br>NCDs and mortality rate are on track. This<br>Sector overall rate has declined<br>dramatically due to Depts that did not<br>update their KPIs.  |
| Infrastructure          |        | Improvements are noted in the<br>Infrastructure Department's KPIs<br>which has helped level the overall rate<br>of this sector, taking into account that<br>a lot of Departments/SOEs did not<br>update their KPIs. Electricity, waste<br>management, environment and RO<br>related KPIs were not recorded.<br>Progress is being made towards<br>improving communication and viable<br>media. |
| Cross-Cutting           |        | Lands Management, Land Committee,<br>Judiciary, Customs, NES and<br>Parliament have met KPI targets this<br>year. The rest of the Departments<br>under this sector did not submit their   |

|  | inputs and some are partially updated. |

| Social         | 45%            | At risk   | 30%   | Off track | Ų        |
| Infrastructure | 30.23%         | Off track | 36%   | Off track | Ų        |
| Cross-Cutting  | <b>26.92</b> % | Off track | 52%   | At risk   | ⇔        |

### Progress Highlights

#### **Economic Sector**

- The Agriculture Division of the Department of Environmental Management and Agriculture continues to make good progress in improving households and farms sustainably through production of domestic crops. 79 farms (75 kitchen gardens and 4 DEMA farms).
- NFMRA continues to contribute to the Gross National Income (GNI) and Gross Domestic Product (GDP) through total revenue collected from foreign fishing licences and access fees and increasing the value of fishing access in Nauru's EEZ.
- The Naoero Postal Services continued to expand its services focusing mainly on the philatelic section and establishing a new Naoero Postal branch in Brisbane which is to take place as soon as possible.

#### **Social and Community Sectors**

- One-stop shops for citizenship application and registration (and other forms of registration like business licence etc) are now available on the Justice website.
   Processes have been strengthened and streamlined.
- The Nauru Electoral Commission continues to work with the Education Department for voting awareness to upcoming voters in Secondary level, to reduce invalid votes rate from the average of 1.6% in the upcoming Election in 2026.
- CRVS Database system project is already underway with ESCAP and Core Team since January 2023. All data from the relevant departments are in progress of compilation and transportation into the system.

#### **Infrastructure Sector**

• DCCNR water division through GCCA+ assisted the vulnerable households with

96 water tanks. Installed water pumps to households, installed tank pipe fittings and began capacity building to upkeep water tanks.

- Development of National Building Code (NBC) is soon to be published by DOID. The Building Code considers the accessibility for water tanks. DCCNR water division will have to work closely with DOID for the ongoing initiatives of supplying water tanks to vulnerable communities.
- Nauru Port development is now being able to cater the berthing of fuel vessels while the Northern Container Yard is looking fairly completed and operational by the end of the FY.

#### **Cross-Cutting**

#### **Sectors**

- Parliament has established a strategic plan for FY 2022-2025. Parliament of Nauru stakeholders collaborated to create an institutionally unifying, impactoriented strategic framework through four strategic objectives: strong independent sustainable democracy, productive capable secretariat, modernised parliamentary services through ICT best practice and effective engagements with public and partners.
- NLC began organising Field days where NLC outreaches to the community to allow landowners to submit claims of any undetermined lands or enquire on any land issues. Field day occurs quarterly and each district has its turn. Notices were shared through NLC and GON facebook pages.
- Nauru Media has successfully established a 24/7 Radio Australia. Nauru Media and ABC signed an MOU for a continued broadcast partnership and launched the new 24hr Radio Australia channel.

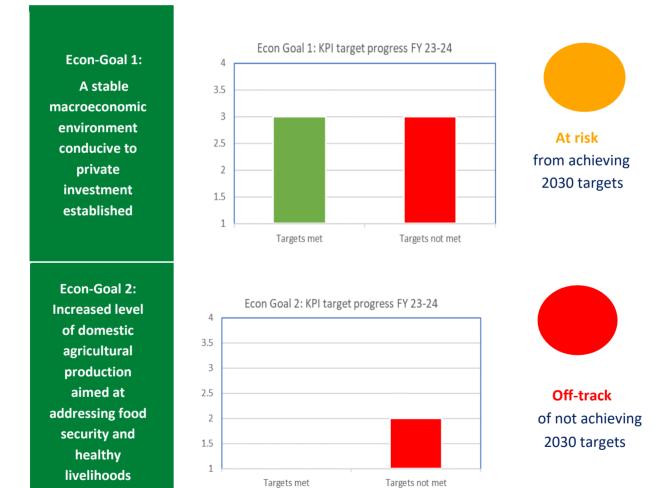

### **Investment Priorities**

Based on KPI progress against National Development Goals, Nauru's most pressing needs lie in the following areas. A full list of investment needs for each sector is provided on the following pages.

| 1 | Enhance<br>resilience<br>against the<br>impact of<br>climate change           | <ul> <li>Establishing an effective and robust emergency system and infrastructure</li> <li>Support needed for DCCNR staff training on water testing (of home water tanks) to national water standard</li> <li>Assistance is required with OTEC Feasibility and Electric mobility and Sustainable Land Transport projects.</li> </ul>  |
|---|---|---|
| 2 | Access to<br>Quality<br>Education,<br>both formal<br>and non-formal           | <ul> <li>Support for building/renovation of TVET infrastructure, to make it disability friendly.</li> <li>Funding support towards Accredited Program Fees and TAFE Qld partnership Nauru TVET capacity building</li> <li>Initial training in the Jolly Phonics resource</li> </ul>  |
| 3 | Stable,<br>Trustworthy,<br>Fiscally<br>Responsible<br>Government              | <ul> <li>Assistance to develop Nauru Government's electronic<br/>storage capacity and frameworks, as well as internet<br/>presence for departments and SOEs</li> <li>Support for succession planning and business mapping across<br/>Government</li> <li>Support to the Nauru Intergenerational Trust Fund</li> </ul>   |
| 4 | Development<br>of an economy<br>based on<br>multiple<br>sources of<br>revenue | <ul> <li>Advisory support to assist with the Foreign Investment Bill<br/>and scoping of foundational issues relevant to foreign<br/>investment</li> <li>Nauru Post aims to expand its philatelic section and seeks<br/>support in consultancy to serve as a professional philatelic<br/>officer</li> <li>Support for Nauru Tourism Corporation to improve<br/>accommodation options on-island and transporting of<br/>tourists for site visiting to increase tourism revenue</li> </ul> |

### **Economic Sector**

| Update  |                                 | Cenpac has successfully concluded its 2023/2024 financial year by establishing itself as the primary internet service provider for government<br>entities and state-owned enterprises. This was achieved without any additional financial burden, as the project was fully funded through a joint<br>venture agreement between Cenpac and PTPL, operating as Telikom Nauru Corporation, Neotel. This strategic partnership has bolstered Cenpac's<br>position in the market and solidified its role in providing essential internet and mobile telecommunication services to key institutions. |  |                 |                  |                                   |  |  |

<sup>&</sup>lt;sup>45</sup> Telecom, as the regulator, will provide data regarding all telecommunications companies providing services to Nauru. 103
